

## Mission, Vision and Values

### Mission Statement:

To become the number one independent school in the borough for young people that are no longer succeeding in mainstream education. To increase the capacity of the Green Room and reproduce the school in multiple locations using our successful, proven ethos and outcomes.

### Vision Statement:

We will provide an inspirational, alternative learning environment, where every young person will have a bespoke learning and life plan to help them achieve success, in whatever form that means to them. We will help our younger students return to mainstream education, and our older students we will help them gain a Skilled for Life Employability Certificate and their required G.C.S.E.s.

### Our Six Guiding Values (ethos):

#### Kindness

Remember that every person is fighting their own personal battle, be kind to everyone, and in return you will receive kindness

#### Learning

We are open to learning and to be the best that we can; learning isn't just something that happens in the classroom, we must take in the world around us

#### Self-Awareness

We are free to express ourselves in a safe environment, without judgement, we should strive to be the best version of ourselves at all times

#### Boundaries

In order for us to get on in life, we accept that we need boundaries that are firm, fair and consistent

### Appreciation

We must say thanks and show our gratitude every day to ensure everyone around us feels appreciated and valued. We know how good we feel when someone says thanks

### Bravery

We encourage change for the better, we do not shy away from difficult circumstances, we are brave, we challenge ourselves everyday, we take the world on, one day at a time..
